

For Chemical Emergencies During Transportation:
USA and Canada: Call CHEMTREC 24 Hours at 1-800-424-9300
International: Call CHEMTREC 24 Hours at 1-703-527-3887
Account Number: CCN709805

1. PRODUCT AND COMPANY INFORMATION

Product Name: AMBRETONE
Product Code: 62839
CAS #: 37609-25-9

Company Name: The Lermond Company, LLC
13 Raritan Road
Oakland, NJ 07436
Phone: 201-896-3300

2. HAZARD(S) IDENTIFICATION

Physical hazards	Not classified	
Health Hazards	Acute toxicity, oral	Category 5
Environmental hazards	Hazardous to the aquatic environment, acute hazard Hazardous to the aquatic environment, long-term hazard	Category 1 Category 1

Label elements

Signal word	Warning
Hazard statement	H303: May be harmful if swallowed. H400: Very toxic to aquatic life. H410: Very toxic to aquatic life with long lasting effects.
Precautionary statement	
Prevention	P273: Avoid release to the environment.
Response	P312: Call a POISON CENTER/doctor if you feel unwell.
Storage	P420: Store away from incompatible materials.
Disposal	P501: Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name: AMBRETONE 100% CAS Number: 37609-25-9

4. FIRST-AID MEASURES

Inhalation: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. For breathing difficulties, oxygen may be necessary. Call a physician if symptoms develop or persist.

Skin Contact: Take off immediately all contaminated clothing. Get medical attention if irritation develops and persists. Wash skin thoroughly with soap and water for several minutes.

Eye Contact: Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists. Promptly wash eyes with plenty of water while lifting the eye lids.

Ingestion: Call a physician or poison control center immediately. If swallowed, rinse mouth with water (only if the person is conscious). Do not induce vomiting. If vomiting occurs, the head should be kept low so that stomach vomit doesn't enter the lungs.

Most important symptoms/effects, acute and delayed: Direct contact with eyes may cause temporary irritation.

Indication of immediate Medical attention and Special treatment needed: Not available.

General information: Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. FIRE-FIGHTING MEASURES

Flash Point: > 200.0 °F (> 93.3 °C) Closed Cup

Suitable Extinguishing Media: Water spray, fog, CO₂, dry chemical, or alcohol resistant foam.

Unsuitable Extinguishing Media: Do not use a solid water stream as it may scatter and spread fire.

Specific hazards arising from the Chemical: Fire may produce irritating, corrosive and/or toxic gases.

Special protective Equipment and precautions for firefighters: Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Fire fighting equipment/
Instructions:**

In case of fire and/or explosion do not breathe fumes. Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Water runoff can cause environmental damage. Ventilate closed spaces before entering them. Keep run-off water out of sewers and water sources. Dike for water control.

Specific methods:

Use water spray to cool unopened containers.

General fire hazards:

Static charges generated by emptying package in or near flammable vapor may cause flash fire.

6. ACCIDENTAL RELEASE MEASURES

**Personal precautions,
protective equipment
and emergency
procedures:**

Eliminate all sources of ignition. Avoid contact with skin or inhalation of spillage, dust or vapor. Keep unnecessary personnel away. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them.

For personal protection, see section 8 of the SDS.

**Methods and materials
for containment and
cleaning up:**

Absorb with inert absorbent such as dry clay, sand or diatomaceous earth, commercial sorbents, or recover using pumps.

Large Spills: : Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

**Environmental
precautions:**

Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground. Inform appropriate managerial or supervisory personnel of all environmental releases.

7. HANDLING AND STORAGE

Safe Handling:

Do not handle or store near an open flame, heat or other sources of ignition. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Avoid breathing vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wash thoroughly after handling.

Safe Storage:

Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Occupational exposure
limits:**

This substance has no PEL, TLV, or other recommended exposure limit.

Biological limit values:

No biological exposure limits noted for the ingredient(s).

**Appropriate
engineering controls:**

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process

enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide easy access to water supply and eye wash facilities.

Individual protection measures, such as personal protective equipment:

- Eye/face protection:** Wear safety glasses with side shields (or goggles) and a face shield.
- Skin protection:**
 - Hand protection:** Wear appropriate chemical resistant gloves.
 - Other:** Wear appropriate chemical resistant clothing. Use of an impervious apron recommended.
- Respiratory protection:** In case of insufficient ventilation, wear suitable respiratory equipment.
- Thermal hazards:** Wear appropriate thermal protective clothing, when necessary.

General hygiene Considerations: Contaminated work clothing should not be allowed out of the workplace.

9. PHYSICAL AND CHEMICAL PROPERTIES

- Appearance:** Colorless to Pale Yellow, Liquid or Solidified
- Vapor density:** N/A
- Relative Density @ 25°C:** Not available.
- Melting point:** N/A
- Flash point:** > 200.0 °F (> 93.3 °C) Closed Cup
- Boiling point:** N/A

10. STABILITY AND REACTIVITY

- Reactivity:** The product is stable and non-reactive under normal conditions of use, storage and transport.
- Stability:** Material is stable under normal conditions.
- Possibility of hazardous Reactions:** No dangerous reaction known under conditions of normal use.
- Conditions to avoid:** Avoid temperatures exceeding the flash point. Contact with incompatible materials.
- Incompatible materials:** Strong oxidizing agents.
- Hazardous decomposition products:** No hazardous decomposition products if stored and handled as indicated.

11. TOXICOLOGICAL INFORMATION

- Information on likely routes of exposure**
- Inhalation:** Knowledge about health hazard is incomplete.
 - Skin contact:** Causes mild skin irritation.
 - Eye contact:** Knowledge about health hazard is incomplete. Causes mild eye irritation.
 - Ingestion:** May be harmful if swallowed.

Symptoms related to the physical, chemical and toxicological Characteristics:

Direct contact with eyes may cause temporary irritation.

Information on toxicological effects

Acute toxicity May be harmful if swallowed.

Components	Species	Test Results
Ambretone Acute Oral LD50	Rat	2500 mg/kg Method: Fixed Dose Method

Skin Corrosion/irritation:

Due to partial or complete lack of data the classification is not possible.
Skin irritation : Species: rabbit
No skin irritation
Method: OECD Test Guideline 404

Serious eye damage/eye Irritation:

Due to partial or complete lack of data the classification is not possible.

Respiratory or skin sensitization:

Respiratory sensitization:

Due to partial or complete lack of data the classification is not possible.

Sensitisation : Skin sensitization guinea pig

Result: Not sensitizing

HRIPT Human

Result: Not sensitizing

at 6 % in Dimethyl phthalate

Phototoxicity : Phototoxicity guinea pig

Result:negative

Skin sensitization:

Due to partial or complete lack of data the classification is not possible.
Sensitisation : Skin sensitization guinea pig
Result: Not sensitizing
HRIPT Human
Result: Not sensitizing at 6 % in Dimethyl phthalate
Phototoxicity : Phototoxicity guinea pig
Result:negative

Germ cell mutagenicity:

Genotoxicity in vitro : Ames test negative
Method: Mutagenicity (Salmonella typhimurium - reverse mutation assay) Due to partial or complete lack of data the classification is not possible.

Carcinogenicity:

OSHA specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

Reproductive toxicity:

Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity- single exposure:

Due to partial or complete lack of data the classification is not possible.

Specific target organ

toxicity- repeated exposure:

Due to partial or complete lack of data the classification is not possible.

Aspiration hazard:

Due to partial or complete lack of data the classification is not possible.

12. ECOLOGICAL INFORMATION

Ecotoxicity:

Very toxic to aquatic life with long lasting effects.

Persistence and degradability:

No data is available on the degradability of this product.

Bioaccumulative Potential:

No data available.

Mobility in soil:

No data available.

Other adverse effects:

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. DISPOSAL CONSIDERATIONS

Disposal instructions:

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations:

Dispose in accordance with all applicable regulations.

Hazardous waste code:

The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues/unused products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging:

Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. TRANSPORT INFORMATION

Ground Shipping (DOT): NON-BULK Not regulated as dangerous goods.

Ground Shipping (DOT): BULK

Proper Shipping Name: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.
(5-CYCLOHEXADECEN-1-ONE)

Hazard Class: 9

UN Number: 3082

Packing Group: III

Air shipping (IATA): Not regulated as dangerous goods.

Ocean Shipping (IMDG):

Proper Shipping Name: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.
(5-CYCLOHEXADECEN-1-ONE)

Hazard Class: 9
UN Number: 3082
Packing Group: III

15. REGULATORY INFORMATION

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

Hazard categories Not listed.

SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous chemical

No

SARA 313 (TRI reporting)

Not regulated.

Other federal regulations**Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List**

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act Not regulated.

(SDWA)

16. OTHER INFORMATION

Disclaimer: This information is provided for documentation purposes only.

The complete range of conditions or methods of use are beyond our control therefore we do not assume any responsibility and expressly disclaim any liability for any use of this product. Information contained herein is believed to be true and accurate however, all statements or suggestions are made without warranty, expressed or implied, regarding accuracy of the information, the hazards connected with the use of the material or the results to be obtained from the use thereof. Compliance with all applicable federal, state, and local laws and local regulations remains the responsibility of the user.

This safety sheet cannot cover all possible situations that the user may experience during processing. Each aspect of your operation should be examined to determine if, or where, additional precautions may be necessary. All health and safety information contained in this bulletin should be provided to your employees or custom
